01 PROFILE

I'm a passionate self-taught programmer, worked in multiple **international** companies. Working on full-stack web and mobile application projects for 10+ years.

02 EXPERIENCE

Feb 2022 – Aug 2026

Full Stack Developer — Green Energy Trading

Australia

- Tailor in-house multiple energy certificate calculation software using **React js**, **Node Js**, **Typescript**, **AWS**, and **Jest** (for unit testing) to expand our market reach in Australia's green energy market.
- Maintain and manage microservices using **GraphQL**, **gRpc**, **Postgresql**, and **Docker/Kubernetes** as we develop new calculation software and business logic.
- Multiply the velocity of our coding workflows by using AI models like **Claude Code** and **Github Copilot** with a strict code-review methodology.

Jul 2021 – Mar 2022

Full-Stack Developer — Energy X (에너지엑스)

South Korea

- Built from scratch and maintain data-simulation applications driven by complex algorithms and data presentation layers using **React Js**, **Next Js**, **Go**, **MongoDB**, and **AWS** to replace old calculation software for the finance department.

Jan 2020 – Feb 2020

Full Stack Engineer — Stranger Soccer

Singapore

- Improved the workflow of in-house development by implementing version control using **Github** and by implementing unit testing methodology using **Jest**
- Ship new features such for an in-house software such as "add a friend" feature and promo code features using mainly **PHP** and **MySQL**

Apr 2017 – Apr 2018

Chief of IT — Visi Jurusan

Jakarta

- Develop and maintain the company's internal software such as mailing system, file storage system, and employee ledger using **Clojure**, **React Js** and **Postgresql**
- Built, maintain, and maximize the SEO of the company marketing website using **Clojure**, **React Js** and **Postgresql**. Resulted in the increase **300%** of user count.

Apr 2016 – Mar 2022

IT Specialist — Zenius Center (Part-time)

Indonesia

- Built and maintain score-testing web/mobile applications using **Clojure**, **Go**, **MySql**, **React Native**, and **AWS** which becomes the main products of the company.
- Built a psycho-test(psychological testing) using **React Js**, **Next Js**, **Node Js**, **Mysql** for helping students practice for exams.
- Maintain the deployment of multiple software using **AWS**

Feb 2013 – Jun 2016

Frontend Web Developer — PT Zenius Education

Jakarta

- Developed an entirely new company website from scratch using basic **HTML** and **CSS**, and using templating language such as **Middleman** and **Bootstrap**.
